I request that all responsive records be provided in text-searchable, unencrypted electronic form, and that any records held in the form of digital files be provided in the format in which they are held, which each responsive file provided as a discrete file with the same format, file name, and metadata as the file held on an SSS or cloud service provider workstation, fileserver, device, or storage media.

As a representative of the news media I am only required to pay for the direct cost of duplication after the first 100 pages of paper records, or cost equivalent for copies of electronic records. Through this request, I am gathering information on Selective Service System plans and preparations for a draft and how it would operate.

I am an award-winning freelance journalist, and the publisher of an informational Web site at <<https://resisters.info>> which is one of the most comprehensive and widely consulted sources of news, analysis, and background and reference information – including responses to my previous FOIA requests to the Selective Service System and other Federal agencies and reporting, analysis, and commentary based on this information and other sources – about the Selective Service System and the issues of the draft and draft registration. The information obtained in response to this request will be made available to the public through publication of significant records on the Web, along with reporting, analysis, and commentary informed by the records released in response to this request.

Please waive any applicable fees. Release of the information is in the public interest because it will contribute significantly to public understanding of government operations and activities.

Understanding Selective Service System operations and plans is essential to informed Congressional debate and informed public engagement with Congress concerning legislation under active consideration by Congress concerning possible abolition of, or enlargement of, the SSS.

Many of these records concern how the Selective Service System uses personal information, for what purposes it shares or exchanges what personal information with what other governmental and nongovernmental entities, and whether or how these activities comply with relevant privacy, data protection, and oversight mandates. Public understanding of these practices is essential to public confidence in the system and to public and Congressional debate and oversight of these practices.

I have no commercial interest in this information. My reporting on this issue, while carried out in my capacity as a professional journalist, has been unpaid and not undertaken for profit.

If this request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions. I will also expect you to release all segregable portions of otherwise exempt material. I, of course, reserve the right to appeal the adequacy of the search for responsive records or your decision to withhold any information, to deny a waiver of fees, or to deny expedited processing.

Please respond as soon as possible to confirm your receipt of this request and to advise the reference number assigned to this request and the expected date of completion of action with respect to this request.

I look forward to your complete reply within 20 working days, as the FOIA statute and the Selective Service System's FOIA regulations require.

To avoid unnecessary delays, please contact me immediately by telephone at +1-415-824-0214 in San Francisco should you have any questions regarding this request.
